

L'Acoustics KUDO Line Array- we currently have (20) KUDO line array elements (10 per side) and (12) SB28 subwoofers, but through our cross rental partnerships we can easily and affordably provide up to an 16 cabinet per side line array with 20 subwoofers.

Rigging & Flying- We can hang or ground stack these boxes and own several in-house solutions for suspending our array, including high capacity Genie Towers, engineered and papered Line Array Towers and self climbing self supported chain motor goal post systems. The system shown here is right at capacity for a 1-ton chain motor and anything larger than this will require a 2 motor hang.

Power & Processing- Purchased in 2018, we use only L'Acoustics LA-Raks with LA-8 amplified processors with Lake processing and factory presets. This makes for the best possible quality and turn key fast deployment.

AVAILABLE CONSOLE CHOICES

Midas M32 with DL32

DigiCo Sd9 with Madi Rack

AVID SC48

SNAKE and STAGE BOX

48 Ch. Whirlwind Split Snake with 200 foot FOH Trunk

MONITOR WEDGES

(16) EAW SM 84 Floor Monitors
RCF Drum Subwoofer
Side Fills available on request

IN-EAR MONITORS

We supply up to 8 Sennheiser EW300-G3 Stereo In-Ear systems complete with paddle antennas and a properly planned frequency chart for your region. Our monitor techs are pros at mixing monitors and own their own ear buds to listen in. This in-ear system features “engineer mode” Allowing the monitor tech to have their own body pack and be able to jump from one performer’s frequency to another for mixing purposes.
